Hiring Manager
Wealthsimple Technologies Inc.
860 Richmond Street W
Toronto, Ontario, M6J 1C9
Frontend Platform Engineer

**DEAR HIRING MANAGER,**

I am writing to you regarding my application to Wealthsimple' s Frontend Platform Engineer position. This position was referenced to me by a close friend and freelance developer, Omar Quazi, who has also taken an interest into this position. I am currently a student at George Brown College attending the Computer Program Analyst program. I have currently over 7+ years of experience in general software development.

As a dedicated and efficient front and backend web developer, I have many valuable skills and abilities required for this position. I am proficient in HTML, CSS, and JavaScript. As well as modern frameworks such as Node.js, Bootstrap, and Angular. I also have a deep skillset for non-web related software. Some include Bash, Python and Object-Oriented languages like Java, C# and C++. This makes me versatile in development as I can contribute to projects where the average web developer cannot.

I would very much like to further discuss opportunities with Wealthsimple and their teams. I would prefer an interview at your earliest convenience. Please reach me through my cell at (647) 339-4483. Please do not hesitate to leave a voice message in case I do not answer, and I will return your call. Alternatively, you may also send an email to kishanmanoharan@gmail.com and I will send a reply within the day.

Thank you for taking the time to review my letter and resume. I hope to hear from you soon.

Sincerely,

Kishan
